

## FACT SHEET G22

# Advertising Signs and Structures

### About this chapter

Chapter G22: Advertising Signs and Structures is a generic chapter that relates to proposed signage within Shoalhaven.

This chapter is based on the provisions of the following development control plans (DCPs) and policies related to advertising and signage:

- DCP 82 – Signage Strategy.
- DCP 89 – Exempt and Complying Development.
- DCP 109 – Home Activity Guidelines.
- DCP 120 – Commercial Use of Footpaths.
- Council's Interim Policy for Public Information Signs.

The majority of the provisions of these DCPs or policies have been carried across into this chapter, except where:

- Redundant (e.g. addressed in the Exempt and Complying Development Codes SEPP).
- Inconsistent with the Shoalhaven Local Environmental Plan 2014 (SLEP 2014) (e.g. permissibility).

A new section has been included that addresses provisions for signage at Ulladulla Harbour in the W3 Working Waterways zone as this is the only zone in the SLEP 2014 that is not covered in this Chapter. This section does not include new controls but identifies that each application will be considered on its merits.

Please refer to the table at the beginning of the chapter for a detailed list of proposed changes.
